Owner, Captain, Interpretive Guide

"WHO WE ARE"

As a business we believe strongly in creating activities which are fun, inclusive, safe and sustainable on water. We create these unique experiences for all who travel with us. At LPIHT we continue to update our policies and procedures, including **COVID 19 safety measures**. *We will continue to uphold for the 2021 season mouth and nose coverings with the use of alcohol hand sanitizer upon entering or leaving the vessel.* Please check our website: www.longpointislandhuggertours.com for all of our information on our tours, charters, times, costs for 2021. We sustain our on-water practices with frequent vessel routing changes, utilizing small commercial pontoon vessels and low guest numbers (4-9 guests max aboard) leaving the smallest imprint as possible on Long Point and its surrounding areas.

"If businesses have a VIBE, this is ours."

We are an inclusive, on-water, eco tour and charter pontoon boat business, operating within the inner and outer bays of Lake Erie, at Long Point Ontario. Our on-water excursions are limited to 9 passengers aboard. This not only keeps exposure to COVID 19 at a lesser risk but also creates a wonderful group feeling that has been proven to you're your experience with us more memorable as well as safe. Smaller crafts, (ours is 25ft) low group sizes help us lessen our overall impact within the marshland of the Long Point, a part of the UNESCO Biosphere reserve within Norfolk county Ontario. Floating by cottagers in a small craft like a pontoon boat gives time for a smile and a wave or a picture of the marsh or a moment with the local wildlife. We feature wrap around shading from the sun wind and bugs on our vessel as well as small change and toilet facilities aboard. Love to hum along to your favourite tunes? We have aboard a **Sirius XM satellite radio** and enjoy the sights and enjoy it within our well-appointed seating. LPIHT supports the local community including not or profit, church and area businesses or services. Our vessel is run commercially with a qualified captain, fully insured and properly maintained so your time aboard is worry free. We offer many ways to book an excursion, you can contact our staff (9am-5pm) by text / phone at **519-410-1801** or the captain directly, (24hrs) at **519-718-9608**, by email lpiht@outlook.com or visit us at our website: www.longpointislandhuggertours.com to view all our programs and services for 2021.

"When you look after the guest experience, the rest comes naturally."

*Graham Ferguson Owner / Captain / Interpretive guide
Long Point Island Hugger Tours*

At LPIHT your captain is not only trained in the safe operation of the vessel but they are your guide as well. With the concerns of driving the boat and destinations looked after, guests can instead enjoy their time aboard with seeing all the beauty Long Point has to offer them. Though a combination of unique locations the captain will engage you with local and natural history to further immerse you the guests within the Long Point experience. We are positive LPIHT has just the right experience for you or your group in 2021. **LPIHT offers tours daily, multiple times per day, seven days a week, JUNE TBA* till October 10th seasonally.** We are wheelchair and disability accessible from our Port Rowan commercial dock and welcome you to call David, our Experience and Disability Consultant at **519-410-1801 for any special considerations.** While all tours usually start and finish at the Port Rowan harbour, LPIHT may be able to meet you and your group at a sea wall or local marina at Long Point or even Turkey Point for an additional fee. Our excursions are fully customizable and can adjust to the level of activity or services guests require.

Where to find us:

We have continued with our usual dockage at the Port Rowan Harbour, west side on the floating docks.

In addition, we can now be found at Collins Harbour Marina Resort at 274 Front Road, St. Williams. (Formerly Shady Akers Marina and trailer park.) All tours will begin and end at Port Rowan for 2021. * Denotes a start to services when mandated.
